PROBLEM DRINKERS, *court procedures for identifying.* A report in progress by L. Filkins & R. Mortimer, Institute of Science and Technology, Highway Safety Research Institute, Huron Parkway and Baxter Road, Ann Arbor, Mich. 48105.

PROBLEM DRINKERS, *survey of court procedures for handling those convicted of driving while intoxicated.* A report in progress by K. Joscelyn & R. Maickel, Institute for Research in Public Safety, Sycamore Hall, Indiana Univ., Bloomington, Ind. 47401.

X-RAY EXPOSURE STUDY—1970. A report in progress by P. Roney & E. White, Div. of Medical Radiation Exposure—Div. of Health Interview Statistics, Bureau of Radiological Health, National Center for Health Statistics, 5600 Fishers Lane, Rockville, Md. 20852.

Annual Index

Volume 2 / March-December 1970

Altman, J. W. Behavior and accidents, 2(3): 109-122.

ANSI STANDARD Z16.1, *the need for (Editorial).* L. Greenberg, 2(4): 202-206.

Barry, P. Z. The role of inexperience in motorcycle crashes, 2(4): 229-239.

BEHAVIOR AND ACCIDENTS. J. W. Altman, 2(3): 109-122.

Bhise, V. D. *See* Rockwell, T. H.

BI-LEVEL REPORTING *of accidents. (Editorial)* J. L. Recht, 2(2): 51-54.

Blumenthal, M. An alternative approach to measurement of industrial safety performance based on a structured conception of accident causation, 2(3): 123-130.

Campbell, B. J. Driver injury in automobile accidents involving certain car models, 2(4): 207-228.

Carlson, W. L. and D. Klein. Familial vs. institutional socialization of the young traffic offender, 2(1): 13-25.

Churchman, C. W. Suggestive, predictive, decisive and systematic measurements, 2(3): 131-136.

Clevinger, T. R. *See* Rockwell, T. H. *et al.*

Cohen, S. *See* Safron, M. *et al.*

DRIVER INJURY *in automobile accidents involving certain car models.* B. J. Campbell, 2(4): 207-228.

DRIVOMETER *as a measure of driving skill.* M. Safron *et al,* 2(1): 30-35.

EXPOSURE, *a crude framework for by-passing.* F. A. Haight, 2(1): 26-29.

FLYING SAFETY PERFORMANCE, *development and application of a non-accident measure of.* T. H. Rockwell *et al,* 2(4): 240-250.

Ghent, W. R. *See* Kraus, A. S. *et al.*

Greenberg, L. The need for ANSI Standard Z16.1, 2(4): 202-206.

Grimaldi, J. V. The measurement of safety engineering performance, 2(3): 137-159.

Haight, F. A. A crude framework for bypassing exposure, 2(1): 26-29.

Haskins, J. B. Evaluative research on the effects of mass communication safety campaign: a methodological critique, 2(2):86-96.

INDUSTRIAL SAFETY PERFORMANCE, *an alternative approach to measurement based on a structural conception of accident causation.* M. Blumenthal, 2(3): 123-130.

INVOLVEMENT RATE, *some effects of measurement errors in estimating as a function of deviation from mean traffic speed.* S. B. White, Jr. and A. C. Nelson, Jr., 2(2): 67-72.

Jacobs, H. H. Towards more effective safety measurement systems, 2(3): 160-175.

Kibrick, E. and R. G. Smart. Psychotropic drug use and driving risk: a review and analysis, 2(2): 73-85.

Klein, D. *See* Carlson, W. L.

Kraus, A. S. *et al.* Pre-driving identification of young drivers with a high risk of accidents, 2(2): 55-66.

MASS COMMUNICATION SAFETY CAMPAIGNS, *evaluative research on the effects: a methodological critique.* J. B. Haskins, 2(2): 86-96.

MEASUREMENTS, *suggestive, predictive, decisive and systemic.* C. W. Churchman, 2(3): 131-136.

METROPOLITAN LIFE AWARDS *for research in accident prevention,* 1970. 2(4): 251-253.

MOTORCYCLE CRASHES, *the role of inexperience in.* P. Z. Barry, 2(4): 229-239.

Nelson, A. C., Jr. *See* White, S. B., Jr.

PRE-DRIVING IDENTIFICATION *of young drivers with a high risk of accidents.* A. S. Kraus *et al,* 2(2): 55-66.

PSYCHOTROPIC DRUG USE *and driving risk: a review and analysis.* E. Kibrick and R. G. Smart, 2(2): 73-85.

Recht, J. L. Bi-level reporting of accidents (Editorial), 2(2): 51-54.

Rockwell, T. H. *et al.* Development and application of a non-accident measure of flying safety performance, 2(4): 240-250.

Rockwell T. H. and V. D. Bhise. Two approaches to a non-accident measure for continuous assessment of safety performance, 2(3): 176-187.

SAFETY ENGINEERING PERFORMANCE, *the measurement of.* J. V. Grimaldi, 2(3): 137-159.

SAFETY MEASUREMENT, *a definition of the problem.* W. E. Tarrants, 2(3): 106-108.

SAFETY MEASUREMENT, *towards more effective systems.* H. H. Jacobs, 2(3): 160-175.

SAFETY PERFORMANCE, *two approaches to a non-accident measure for continuous assessment of.* T. H. Rockwell and V. D. Bhise, 2(3): 176-187.

SAFETY PERFORMANCE MEASUREMENT. H. M. Schroder, 2(3): 188-195.

Safron, M. *et al.* The drivometer as a measure of driving skill, 2(1): 30-35.

Schlesinger, L. *See* Safron, M. *et al.*

Schroder, H. M. Safety performance measurement, 2(3): 188-195.

Smart, R. G. *See* Kibrick, E.

Steele, R. *See* Kraus, A. S. *et al.*

Tarrants, W. E. A definition of the safety measurement problem, 2(3): 106-108.

Thompson, M. G. *See* Kraus, A. S. *et al.*

White, S. B., Jr. and A. C. Nelson, Jr. Some effects of measurement errors in estimating involvement rate as a function of deviation from mean traffic speed, 2(2): 67-72.

YOUNG TRAFFIC OFFENDER, *familial vs. institutional socialization of.* W. L. Carlson and D. Klein, 2(1): 13-25.
